## LIBRARIAN'S REPORT

The year 1953 saw a total of 2,833 books circulated. Of these 1561 were juvenile, 640 were adult fiction, and 632 were adult non-fiction. A larger number of borrowers account for this increase of 12% over the 1952 circulation.

One hundred and twenty four books were added to the library this year—58 of them gifts. A group of interested townspeople by their contributions made it possible for us to purchase COLLIER'S ENCYCLOPEDIA. This valuable reference work has been greatly appreciated by the high school pupils.

The Library has received two gifts as Memorials to the late Senator Charles Tobey. The Gregg family sent the beautifully illustrated "Land Birds of America", and Mr. Thomas Buchanan of Beaver, Penn. sent a check for \$50, which has been placed in a special fund by the trustees until they determine how it can best be used.

Another note-worthy gift to the library was a large collection of Classical and Semi-classical record albums. These may be taken out for the same length of time as books. Insofar as the State Library knows we are the only library of its size having such a collection. The libraries in Keene and Hanover are the others having such a service.

The Bookmobile continues its valuable visits every 2 months. We borrow an average of 125 books each visit. We also borrow directly from the State Library. With the help of these excellent services, we are able to maintain a better standard on our limited budget.

Respectfully submitted,

BARBARA A. HEDMAN,

*Librarian*

# REPORT OF THE SCHOOL BOARD

For Fiscal Year Beginning July 1, 1952

and Ending June 30, 1953

To the Citizens of the Town of Temple, N. H.

The Board of Education of Temple respectfully submits its annual report with that of the Treasurer, Superintendent and Auditors.

In spite of uncomfortably crowded conditions our teaching staff, Miss Stone, Mrs. Carter, and Miss Edwards are again providing a good program of instruction.

The health of the children is under the excellent supervision of Miss Sybil Beatham, School Nurse.

We are most fortunate to again have Mrs. Dorothea Leighton in charge of our School Lunch Program. She does an excellent job and deserves our appreciation and wholehearted support. We are grateful for the volunteer dishwashers who have helped to lighten her load.

The children continue to do well as the school janitors, at a considerable saving.

The P.T.A. needs your help if it is to continue to survive. It provides a good chance to learn about our school program, and to discuss all aspects of education. Here is an opportunity to launch new projects, bridge the gap between school and the home, and to talk and work with other parents to make our school program more effective. Meetings are held every second Wednesday at the school house at 8:00 p.m. We hope to see you there.

We wish to thank everyone for their continued interest and co-operation.

## SUPERINTENDENT'S REPORT

---

To the School Board and Citizens of Temple:

I respectfully submit my seventh annual report as your Superintendent of Schools.

### Instruction

Despite the crowded conditions in our school Miss Helen Stone and Mrs. Lucy Carter have done an exceptionally fine job in carrying on an effective educational program for our children. Proper attention has been given to the development of the fundamentals as well as providing the social activities and experiences that are necessary for the growth and development of well-rounded children. While it is difficult in a multiple graded room with large numbers of pupils to provide as much individual attention as one would desire, every effort has been made to give extra attention and help to those who need it.

If the special article in the warrant pertaining to an additional teacher and additional space is approved by the voters of the district the grade assignments can be divided in such a manner as to provide for more individual attention and a more efficient educational program.

Miss Ethelyn Edwards, with the splendid cooperation of the teachers, is continuing her fine work with the music program in our school.

The music in the primary room consists of the development of the singing voice, the feeling for beautiful music and the joy of singing beautiful songs. This is done through the use of their basic text, supplemented by seasonal songs, folk dancing and singing games as room space allows. As much time as is possible is spent on helping the individual to develop a properly placed singing voice. Rhythm band work is an important part of the music program in this room.

In the upper room the singing course is continued with the emphasis on two-part singing. The basic music facts are taught and some syllable reading. The song flutes are introduced in this room. These instruments are a great aid in teaching music reading as well as a source of pleasure to the child. We would like to do more with music appreciation but limited time and inadequate equipment makes this part of our program quite ineffective.

## Health Supervision

Miss Sybil Beatham, School Nurse, and Dr. Claire Cayward, School Doctor, are maintaining close supervision over the health of our children. The School Nurse Report reveals the details of this work.

## Building and Grounds

This past year additional heat was added to the space presently used as the lunch room, as well as painting this area. The only area in the school building that now needs attention is the boys' basement. A sum of money is provided in the budget to re-decorate this room.

The grounds are being maintained in an attractive condition during the school year and summer months by responsible boys under the supervision of Miss Stone.

## Special Articles

Articles 9 - 13 provide for the construction of an addition to the present school plant, and the services that go with such a construction.

At the Special District Meeting, held on December 3, 1953, the School Board was petitioned to bring in at the next annual meeting as detailed plans as possible for the consideration of the voters. Since that date, several meetings have been held to review the sketches presented at the Special Meeting. Mr. Stephen Tracy, Architect from Nashua, N. H., has been acting consultant for the School Board.

The plans as they presently exist would provide the following space:

1. A large classroom 36' x 24'.
2. A large storage room on first floor.
3. A large cafeteria room 36' x 24'.
4. Additional kitchen space and storage.
5. A teachers' and nurses' room to be made from the present room adjacent to the boiler room.
6. Additional exits from the building.

Article 14 provides an opportunity for the voters to review the transportation program for the district and to act upon any changes they desire.

## Finance

The School Board's Budget for the school year 1954-55, exclusive of any action taken on the special articles in the warrant, calls for an appropriation of \$17,184.02, a net decrease of \$1,425.67 over last year's appropriation. This decrease is largely reflected in an estimated savings of \$990 on tuitions, due to a smaller number of pupils attending high school next year; \$248 on insurance, since the large amount for a three year program will be paid during the current year and \$400 as a result of the elimination of district indebtedness on the renovations to the school plant that were made several years ago. Increases in other areas as transportation, teachers' salaries, teacher retirement and expenses of administration results in a net decrease as quoted above.

## Conclusion

I wish to again extend my appreciation to the Temple School Board, the parents and interested friends of the school, for their splendid cooperation.

NEWELL J. PAIRE

Superintendent of Schools

## SCHOOL NURSE REPORT

As School Nurse I made eleven visits to the Temple Public School during the year, to check the children for signs of communicable disease. In February there were two cases of scarlet fever but luckily no more developed. There were many colds but no other serious disease.

Dr. Claire Cayward examined the children in October and I assisted him and kept the records. There is a decided improvement in the health of the children except for colds.

The children were weighed at the beginning of school and in the spring and most have gained satisfactorily.

By means of the Snellon Chart I tested the eyes of the children in the Grammar Room and also re-checked the hearing of those children who had shown a loss when the group hearing tests were made. A report was sent to the parents of those children who were in need of correction.

Defects found by Dr. Cayward when he made his examination:

Defective teeth	16
Enlarged tonsils	6
Enlarged cervical glands	4
Acne	1
Rheumatic heart disease	1
Epilepsy	1

I made four visits to discuss the health of the children with parents.

SYBIL M. BEATHAM, R. N.
